New York Stock Market

New York, June 39.—Presentation in court at St. Paul of the Harriman dissolution plan at St. Paul of the Harriman dissolution plan was the one development of a stock market day which otherwise was featureless. The plan contained no surprise, its essential features having been known for some time, but the Harriman stocks siumped and the whole ist sold off on the news from St. Paul, although the market rose strengly on Saturday, when it was announced that the plan had been agreed upon with the sanction of President Wilson.

The explanation by traders of the market's action was the character of the statement made by the Attorney-General concerning the plan. The Attorney-General concerning the plan for a stock of one railroad by another, and his request that the court approve the dissolution proposal subject to conditions which would not except stockholders under the plan from becoming defendants in any further suits, were points used as a basis for selling stocks.

Union Pacific responded the more readily to pressure because of the extent of its rise on Saturday, and the contraction of the short interest on the rise, which apparently was due largely to covering. Union Pacific and Southern Pacific both sold down 3 points.

and Southern Pacific both sold down 3 points.

The decline in the Harriman stocks fitted in with the general tendency of the market, which was dull and heavy. Although there was an occasional rally, gains were frequent. The release to morrow of \$215,000,000 July I interest and dividend money thus far exerciped little or no effect on the money markets. Banks and other financial institutions, as well as bond and brokerage firms are circularizing the country in an endeavor to stimulate a demand for higher grade securities, chiefly bonds, but the response to date, except for notes, has been light. The dullness of to-day's trading indicated that investors were still keeping out of the market in spite of the current level on prices. Bonds were irregular. Total saies, par value, \$1,355,000. United States is coupon decline 4, the registered 3s and the Panama 3s, 4 per cent on call.

New York. June 30.—Money on call steady, highest, 234; lowest, 174.) ruiling rate, 2. last loan, 2; closing bid, 2; offered at 234. Time loans, steady; sixty days, 334,933, per cent ninety days, 34,9332, six months, 54,9332, Prime mercantile paper, 6 per cent. Sterling exchange firm with actual business in bankers' bills at \$4.880 for sixty day bills and at \$4.880 for demand. Commercial bills, 44.824; Mexican dollars, 48. Bar silver, 583, Government bonds weak; railroad bonds irregular.

New York June 33.—The cotton market was quiet to-day, but prices cased off rather sharply in the late trading on rumors that was had broken out between Greece and Hugaria over the disputes in the Balkans. The close was easy and from 6412 points. The close was easy and from 6412 points net lower. The market opened steady at an advance of 2 points to a decline of 5 points, hear months being influenced by over-sunday covering 42 ders, while later deliveries reflected disappointing cables and a favorable weather map, July eased off right after the call under scattering fluidation, which was said to have been influenced by the circulation of additional netices, estimated at 5,000 bales, and that position worked off to a net decline of 6 or 7 points, but as soon as scattered offerings of July had been absorbed the whole list steaded up on scattered covering. This demand may have been in price by increasing complains of boil weevily at reports that further substantial shipments of the whole list steaded up on scattered with the covering. This demand may have been in price by increasing complains of boil weevily at reports that further substantial shipments of the made from the local stock to the propose of the covering. This demand may have been in a price by increasing complains of boil weevily at reports that further substantial shipments of the made from the local stock to the propose of the covering of the whole list steaded up on scattered of the covering of the whole list steaded up on scattered of the whole list steaded up to scattered of the whole list steaded up on scattered of the whole list steaded up to scattered of the whole list steade

closed at practically the lowest point of the day.

With Friday and Saturday of this week holidays, trading seemed to be quite largely in the way of evening-up accounts pending the government report and the three-day adjournment. Detailed weather reports showed rains in the Southwest, where they were considered beneficial. It is claimed that occanifelight room has been engaged for 20,000 bales for shipment from New York during July.

New Orleans, June 89.—The cotton market did not have a very good undertone to-day, in the morning prices were fairly well held up in the face of improvement in weather conditions over the belt and in crop accounts, but in the afternoon the market weakened and disquieting rumors concerning the foreign political situation. In the gossip of the day traders who have been heavy buyers of July were spoken of as sellers of that month and, at times, considerable liquidation of the long interest was in evidence. The opening was steady at a decline of 294 points on poor cables and a good weather map. Before the middle of the morning the decline was widened in the detailed weather reports for more showery weather for the belt. It was generally accepted that these rains had releved the drought that has been complained of for the time being at least. Toward the middle of the day scalping shorts took their profits and buying from this source caused a recovery. At the highest the trading months were 1 point up to 2 points down compared with the final figures of Saturday. In the afternoon the market broke rather sharply to a level 130 fb points. Spot cention quiet and unchanged; middling, 125c, Saturday in the spot 21 bides and 200 to arrive Closing futures: January, 11.6; March, 11.54; July, 12.42; August, 12.92; September, 11.55; October, 11.44.

Strike Short-Lived.

[Special to The Times-Dispatch.]
Lynchburg, Va., June 30.—Because
they objected to continuing the emthey objected to continuing the employment of a nonunion hoisting engineer, sixteen bricklayers, four hollow tilelayers and a second hoisting engineer quit work on the eleven-story building of the People's National Bank. The strike, however, was short-lived, for after a conference it was agreed that the men should all return to week that the men should all return to work

STOCK CLOSING

Trading Professional, and All of Saturday Advance Is Lost.

7/

BY BROADAN WALL,

New York, June 26.—Stocks closed dull and heavy to-day, losing all of Saturday's advance. The trading was very largely professional, with much of the day's business attributed to an operator in Boston.

There was general disappointment that the market failed to reflect an optimistic tone on the publication of the Union Pacific agreement in the matter of selling the \$88,000,000 Southern Pacific and the swopping of the \$35,000,000 with Pennsylvania.

The buils in the market apparently lack organization and confidence, and it was an easy matter to offer stocks down in the absonce of support. Of course, if holders of Union Pacific are deprived of being stockholders of Southern Pacific, it is tell that until some organized support is given Southern Pacific will be at the mercy of professional attack. Wall Street does not like the suggestion that the Attorney-General will start a suit to divorce Central Pacific from Southern Pacific.

The general market moved irregularly without important changes until the details of the Union Pacific plan were made public, and it was immediately followed by unfavorable developments in the Ralkan situation and cables from abroad showed that the markets at London. Paris and Berlin were unsettled. This brought sching of Canadian Pacific that carried the stock down? points. Attempts were made to depress prices by reports of heat that was scorching the crops. This was dispelled by wires from the West reporting general rains in the Northwest and in Ohio. Nebraska and Kansas.

Amalgamated and the other copper shares were easier on unfavorable reports from the trade. Buyers have not been attracted by the drop in metal, and the June report of the Producers' Association, to be published next week, will, it is expected, show an enlarged supply of the metal in first hands. Declines in the market were numerous. Chesapeake and Ohio lost 28, Steel % and Reading 54, last October. Friends of the company are still busy with attempts to straig, ut the tangled affairs.

The currency bill came in for a New York, June 29.-Stocks closed dull and heavy to-day, losing all of Saturday's ad-

ticism of being in the hands of the politiclans.

May statements of railway earnings to-day
were conspicuous for decreases in net following grees increases. This is accounted
for by the desire of the companies to put tack
into the road as much os, the Internation Commerce Compaisson will permit. Coundlan
Pacific showed a net decrease of \$174,000;
Southern Railway a net decrease of \$156,000.
Eric with a gross increase of \$112,000 made
a net increase of \$112,000, and Hilmois Central
made a uet gain of \$225,108.

The opinion prevails among the commission
houses that little can be expected of the
stock market until after the week-end holidays, when it is thought an easier tone in
the time money market may bring about a
more cheerful feeling.

Read This Carefully-

From a prominent business man shortly to locate in Richmond

June 23, 1913.

"My Dear Sirs: Your letter of June 5th was received during my absence, and I have neglected to answer same.

"For the last several years I have transacted my business in the different First National Banks in the cities I have lived in, and expect to continue this
